Readers' Wives Striptease

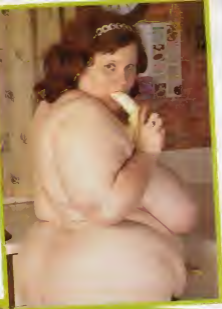

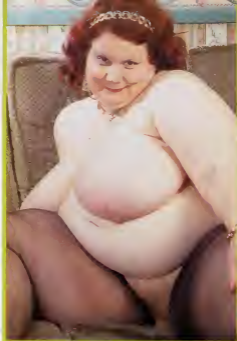

Becky of Diss

Photographed by Notion Glamour Studios

You know when you've had a close encounter with the lovely Becky here. For starters, the hairs on the back of your neck start to curl. Then there's an involuntary tightening of the trouser front, followed by a severe case of the sweats. Then, regrettably, you have to leave the room. And that's when you know you've been Diss missed (*Bloody hell, what a stinker of a pun* – Asst Ed).

FIFSTA Invitation To All Readers' Wives

The set is built, the lights are blazing and a top photographer and stylist are ready for a diva's shooting in their studio. All they're waiting for is the star attraction... and that could be you! We pay your expenses and you'll also receive our modelling fee of £150. Or how do you fancy being photographed in your own home? That's right, we'll send a professional photographer to you and, again, you'll receive a modelling fee of £150! To apply, just send at least four recent photographs of yourself, three of which must be nude, to: F.I.F.S.T.A., PO Box 312, Wilton, Essex CM8 2EJ. Remember to write your name, address and daytime telephone number on the back of each photograph, and state whether you'd prefer a studio or home shoot. Look forward to seeing you!

Readers' Wives Striptease

Helen of Swansea

Photographed by Notion Glamour Studios

Aah, what I wouldn't give to spend a few hours alone in the company of the lovely Helen. That dark, burgundy tinted hair, those pert, cherry-like breasts, her succulent fanny. I swear, I'm going to do myself a severe injury in the trouser department unless I stop looking at her. I'm just glad that we managed to get her for this issue. Y'see, this is Helen's very first set, taken only a week or so after she got in touch with the snapper. I think you'll agree when I say that, as far as I'm concerned, she's a natural and by gumbo, I don't half fancy giving her one.

Readers' Wives Striptease

Sam of Canterbury

Photographed by Karl Wilson

If you've already had a quick flick - through the magazine, that is - you might have been struck by a change we've made to this Readers' Wives Special. It's hardly a radical idea, but we did think that, as this issue celebrates Readers' Wives, we should cram more readers' wives into it. And that's exactly what we've done. New improved Fiesta Readers' Wives Specials offer more wives for your money. Don't accept any substitute. Fiesta Readers' Wives Specials are the original and the best! All of which has precious little to do with the lovely Sam here, but I did want to get it off my chest.

Readers' Wives Striptease

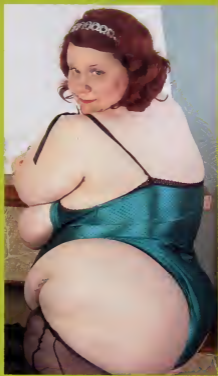

Anne of Dublin

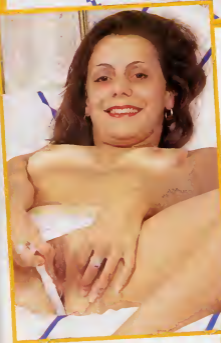

Photographed by Karl Wilson

Anne is one of those sweet butter-wouldn't-melt girls. To look at her you wouldn't believe what a hot little minx she is and that she enjoys nothing better than slowly and seductively stripping off for a well-known glamour photographer, that she doesn't mind having herself snapped with her favourite dildo and she just loves showing what she's got. Appearances can be deceptive and none more so than Anne's. This time our photographer caught her at home – now our staff just can't wait to get her into our own studios. With a professional set and the sort of exotic props we can provide, who knows what she'll do?

Readers' Wives Striptease

Megan of Warwick

Photographed by Dick Bidet

This year more girls than ever before have written to *Fiesta* enquiring about the possibility of appearing in the magazine itself. So you might think that getting a pro-shoot at *Fiesta's* Essex studios is next to impossible. Wrong. Because we have upped the amount of *Readers' Wives Specials* we produce and because we have also increased the number of *Readers Wives* appearing in these special issues, there are now more opportunities for first time models to get involved with Britain's Number One adult mag. So send us your pictures today, at: FRWS, PO Box 312, Witham, Essex CMB 352 and the girl appearing on these pages next time round could be you.

Readers' Wives Striptease

Julie of Witham

Photographed by Karl Wilson

This is the second time that Karl, one of our snappers, has popped round to Julie's gaffe and shot a load. Of photos that is. Not that you can blame him, cos Julie's got that quality we here at Fiesta think is important: she looks like she's having fun. There's nothing that can make up for a model who doesn't seem to be giving it 100%, and Julie certainly does that. She's fucking lovely. First time up, she was the star of *Ravers*, one of our sister mags, but we thought that she deserved the full *Fiesta Readers' Wives* Special treatment, and so here she is. What better way to finish the magazine than with a lady who knows that, like *Fiesta*, sex is all about having fun. Enjoy.

Readers' Wives Striptease

Anthea of Cornwall
Photographed by James Freeman

I think you can tell by the sheer quality of these photographs – lovingly taken by the ace wife-meister Jimmy Freeman himself – that we like to get a wide variety of women into the studio for a professional Fiesta photo-shoot. This issue, in fact, was well over-subscribed. When would-be models heard that we were running another *Readers' Wives Special* – one of the best opportunities for breaking into glamour that there is – the queues began to form outside the back door of Freeman's casting office as good-looking girls in an assortment of body-hugging clothing waited for the chance to show Jim what they'd got. In the end we whittled them down to the handful needed to fill this issue. But no-one was sent away and the results will appear in future *Readers' Wives Specials* and regular issues of *Fiesta*.

Readers' Wives Striptease

Pippa of Barnsley

Photographed by James Freeman

Cannes. Nice. St Moritz. Acapulco. These are just some of the realistic backdrops we've used in Fiesta photo shoots. Be a Fiesta model and see the... er... back of our Essex studio. It's not that we're tight-fisted, it's just that getting the photographer and his equipment, the girls and the make-up artist all together at one time is a major hassle. Shooting everything in our studios means that we have control over all the variables. We don't have to worry about the model forgetting to pack her knickers and her passport. So here we have first-timer Pippa, looking like she's basking in the hot sun at some far-flung location when in fact we were all freezing our butts off beside the A12. And what some magazines so often fail to understand is that it's the woman you want to see, not a load of landscapes, no matter how lovely.
